

9.1 Tipper Receival – Boral Transport (5752)

- Truck arrives on the Weighbridge and Driver proceeds to the GTICK Kiosk.
- Note the Truck's gross weight of 48.00 tonnes.

9.1.1 Transaction Type

- Driver is prompted as to the type of Road Movement they are executing.
- In this case, we are processing a PO Receival.

9.1.2 Vehicle Identification

- Driver now identifies their truck either by presenting a Dallas Key or by typing in the Truck's registration no.

9.1.8 Unload delivered goods

- Driver proceeds to the correct area within the site and unloads the delivered material.

9.2 Tipper Receival/Despatch (turn-around?)

A “turn-around” movement is where:

- A truck arrives with a delivery of material.
- Processes this delivery at the Kiosk using pre-stored tare weight.
- Unloads that material.
- Immediately proceeds to pick-up material for despatch.
- Processes the despatch at the Kiosk using pre-stored tare weight.
- Proceed to the Customer.

9.2.1 Turn-around

Using the example described in 9.1 Tipper Receival – Boral Transport (5752) above we will assume that this truck has processed a receival and has unloaded the received material.

9.2.2 Load Material for Despatch

- Driver proceeds to the correct area within the site to load material for despatch.
- Driver proceeds to the Weighbridge.

9.3 Tipper Receival – non-Boral Carrier

NOTE: Movements for non-Boral Carriers will generally not use pre-stored tare weights. In this case the vehicle must present at the weighbridge upon arrival (gross weight) and again upon departure (tare weight and docket).

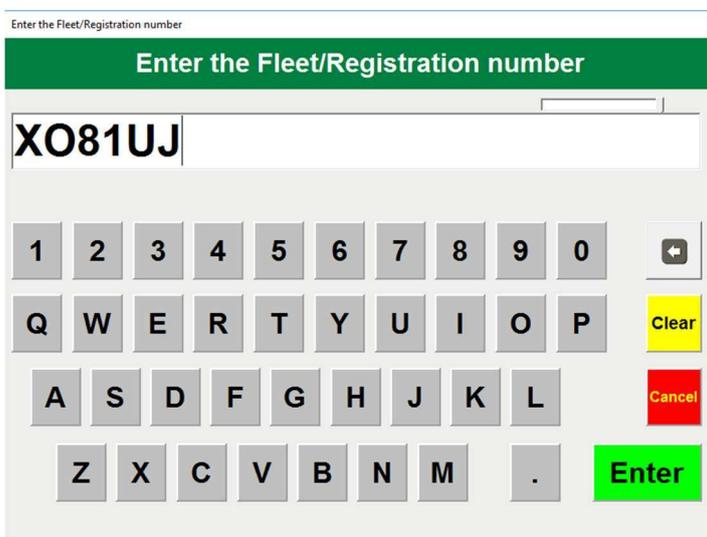

- Truck arrives on the Weighbridge and Driver proceeds to the GTICK Kiosk.
- Note the Truck's gross weight of 60.00 tonnes.

- Driver is prompted to select the current Truck/Trailer combination.

9.3.1 Vehicle Identification

- Driver now identifies their truck either by presenting a Dallas Key or by typing in the Truck's registration no.

- Driver is prompted to select the current Truck/Trailer combination.

9.3.2 Supplier Delivery Docket

- Driver is prompted to enter the Supplier's docket number.

The image shows a digital input screen titled "Supplier Delivery Docket". At the top, there is a green header with the text "Supplier Delivery Docket" in white. Below the header is a large white input field containing the number "555555". Underneath the input field is a numeric keypad with buttons for digits 1 through 0, a "Clear" button (yellow), a "Cancel" button (red), and a large green "Enter" button. The keypad also includes a small square button with a right-pointing arrow next to the number 3.

9.3.3 PO Selection

As this Supplier (S8034278) has been authorized to Carrier 14000 (this truck's Carrier), the system will automatically list any Purchase Orders for this supplier.

If only one Purchase Order for this supplier is present the system will default to that Purchase Order.

9.3.4 Weigh In (Gross)/Driver Confirmation

- The driver will confirm the following:
 - The Supplier of the goods.
 - The Product being received.
 - Change the Delivery Docket No. if required.
- The Driver can now save the Gross Weight.
